with request for topical and urgent debate
pursuant to Rule 48 of the Rules of Procedure

on the FORTHCOMING WILLIAMSBURG SUMMIT

The European Parliament,

- A. having regard to the debates at the sittings of 27 and 28 April 1983 on the problems of employment,
 - B. having regard to the conclusions reached at the recent Paris Conference of the economic Ministers of the 24 OECD countries where it was agreed that it has now become possible to pursue economic policies which place greater emphasis on the problems of growth without losing sight of the need to curb inflation,
 - C. whereas this will create greater scope for promoting policies which are more geared to the development of employment,
 - D. whereas in this connection it could prove particularly useful to preserve and consolidate the trend towards openness in the markets and in both international and intra-Community trade, and to make serious and coherent efforts to establish a favourable climate and more stable and rational relations between currencies,
 - E. recalling the positions it has expressed on many occasions on the subject of monetary and interest rate policy,
 - F. stressing once again its interest in the forthcoming Williamsburg Summit and pointing to the grave danger of a serious failure, which could provoke still greater uncertainty,
- 1. Calls on all the Member States and the Commission to redouble their efforts to achieve the abovementioned goals and to strive for extensive coordination of their actions in pursuance of common objectives;
 - 2. Calls in particular on those countries which have made good progress towards economic reorganization and revival to create an international climate more conducive to recovery and the absorption of unemployment;
 - 3. Calls on the Commission to take fresh initiatives to establish a more stable international monetary system and an agreement at world level on interest rate policy;
 - 4. Instructs its President to forward this resolution to the Council and the Commission.
